Summary

I am a full stack web developer with almost 4 years of experience, I have made over 100+ websites for my clients that helped me gain their trust and work with me in long-term. I also have a good knowledge of Web Scrapping and Automation Using Selenium and BeautifulSoup.

I am a self-taught and quick learner and can understand clients requirements and code logics. My primary focus is to write clean, structured, reusable and efficient code so that future developer don't find it hard to understand the logic.

I am currently learning ML and mostly focused in Computer Vision. My goal is to use my Web Skills with AI to build outstanding products
